A region ripe for discovery

The Kamloops Wine Trail showcases a group of unique and diverse wineries pioneering a new wine region in British Columbia's scenic Thompson Valley. Located along the picturesque North and South Thompson Rivers, Kamloops wineries are crafting a new class of award winning wines in a region ripe for discovery.

The local terroir with its semi-arid conditions, mineral rich soils, long warm days and cool nights provide premium conditions for our winemakers to shine. Bright aromatic wines with an elegant minerality are quickly becoming a signature style in this region. With a wide range of grape varieties planted, there is something to suit every palate.

Total distance of the Kamloops Wine Trail
from one end to the other is approximately 60 km.

Experience the warm Kamloops hospitality and relaxed charm of our wineries, where tasting with the owner is the norm, not the exception.

Savour the scenery and local wildlife as you sip through our tasting rooms, tour our vineyards or dine on one of our scenic patios.

Pack a picnic and stay a while. We look forward to spending time with you.
